

SQL INDUSTRIAL PRACTICAL TASK

Banking Account Management - DDL + DML + DQL

60 Small Practical Tasks - Basic to Industry Level

Student Name _____

Mobile Number _____

Batch _____ Date _____

Objective: Practice only core SQL DDL, DML and DQL operations using one realistic banking account-management table. Use business conditions, comparison operators, logical operators, LIKE, BETWEEN and LIMIT. No joins, subqueries, GROUP BY, HAVING, functions or advanced reporting are required.

Suggested target for 1 hour: Minimum Task 1-40, Good Task 1-50, Excellent all 60.

Part A - Database & Table Creation

Task 1: Create a database named banking_db.

Task 2: Use/select the banking_db database.

Task 3: Create a table named accounts with the following columns:

Task 4: Display the structure of the accounts table.

Task 5: Display all tables available inside banking_db.

accounts table structure

```
account_id INT PRIMARY KEY
account_number VARCHAR(20)
customer_name VARCHAR(100)
account_type VARCHAR(30)
branch VARCHAR(50)
city VARCHAR(50)
balance DECIMAL(12,2)
credit_score INT
status VARCHAR(20)
opened_date DATE
```

Part B - INSERT Operations

Task 6: Insert: 1001, ACC10001, Aarav Sharma, Savings, FC Road, Pune, 85000, 780, Active, 2025-01-15

Task 7: Insert: 1002, ACC10002, Priya Patil, Current, Andheri, Mumbai, 145000, 810, Active, 2024-11-20

Task 8: Insert: 1003, ACC10003, Rohan Joshi, Savings, Baner, Pune, 42000, 735, Active, 2026-02-10

Task 9: Insert: 1004, ACC10004, Sneha Kulkarni, Salary, Nashik Road, Nashik, 67000, 760, Active, 2025-08-05

Task 10: Insert: 1005, ACC10005, Vikram Deshmukh, Savings, Camp, Pune, 18500, 690, Dormant, 2023-06-18

Task 11: Insert: 1006, ACC10006, Neha More, Current, Thane, Mumbai, 225000, 825, Active, 2024-03-12

Part C - DQL / SELECT Queries

Task 12: Display all records from accounts.

Task 13: Display only customer_name and account_number.

Task 14: Display customer_name, account_type, balance and status.

Task 15: Display all Savings account holders.

Task 16: Display all customers from Pune.

Task 17: Display accounts having balance greater than 50000.

Task 18: Display accounts having balance less than or equal to 50000.

Task 19: Display accounts having balance between 50000 and 200000.

Task 20: Display accounts whose credit_score is greater than or equal to 750.

Task 21: Display only Active accounts.

Task 22: Display accounts whose status is Dormant or Closed.

Task 23: Display accounts from Pune AND status = 'Active'.

Task 24: Display accounts from Mumbai OR Nashik.

Task 25: Display accounts whose account_type is Savings OR Salary.

Task 26: Display accounts whose balance is NOT BETWEEN 25000 AND 100000.

Task 27: Display accounts whose customer_name starts with 'A'.

Task 28: Display accounts whose customer_name ends with 'a'.

Task 29: Display accounts whose branch contains the word 'Road'.

Task 30: Display the top 3 accounts having the highest balance using LIMIT.

Task 31: Display the first 5 accounts using LIMIT 5.

Task 32: Display 3 accounts starting from the 4th record using LIMIT 3, 3.

Task 33: Display Active Savings accounts from Pune with balance greater than 50000.

Part C - DQL / SELECT Queries (continued)

Task 34: Display accounts from Pune, Mumbai or Nashik having credit_score >= 750.

Task 35: Display accounts where balance > 100000 AND credit_score >= 800.

Task 36: Display accounts where balance is between 50000 and 150000 OR credit_score > 800.

Task 37: Display accounts whose status is Active AND account_type is NOT Current.

Task 38: Display accounts whose customer_name contains 'ar'.

Part D - UPDATE Operations

Task 39: Update Aarav Sharma's balance from 85000 to 95000.

Task 40: Update Vikram Deshmukh's status from Dormant to Active.

Task 41: Update Rohan Joshi's credit_score from 735 to 755.

Task 42: Update Sneha Kulkarni's branch from Nashik Road to College Road.

Task 43: Update Priya Patil's account_type from Current to Premium Current.

Task 44: Increase the balance of account_id 1006 by 25000.

Task 45: Increase the balance of all Savings accounts by 5000.

Task 46: Update all accounts from Pune branch locations to city = 'Pune City'.

Task 47: Increase credit_score by 10 for Active accounts having credit_score below 750.

Task 48: Change status to Dormant for accounts whose balance is below 20000.

Part E - DELETE Operations

Task 49: Delete the account whose account_id = 1005.

Task 50: Delete the account whose account_number = 'ACC10004'.

Task 51: Delete all accounts having status = 'Closed'.

Task 52: Delete accounts whose balance is less than 10000 OR credit_score is less than 600.

Task 53: Delete accounts from a selected city where status is Dormant.

Part F - ALTER TABLE / DDL Practice

Task 54: Add a new column: email VARCHAR(100).

Task 55: Add a new column: mobile VARCHAR(15).

Task 56: Change the size of branch to VARCHAR(100).

Task 57: Rename column customer_name to name.

Task 58: Delete the mobile column.

Part G - Table-Level DDL Practice

Task 59: Add a column: account_category VARCHAR(30), update at least two records, then rename the accounts table to bank_accounts.

Task 60: Display the structure of bank_accounts, then remove all records using TRUNCATE TABLE and finally delete the table using DROP TABLE.

Topics Used in This Practical

CREATE DATABASE USE
CREATE TABLE DESC / DESCRIBE
SHOW TABLES INSERT
SELECT WHERE
AND OR
NOT BETWEEN
IN LIKE
LIMIT UPDATE
DELETE ALTER TABLE
ADD COLUMN MODIFY COLUMN
RENAME COLUMN DROP COLUMN
RENAME TABLE TRUNCATE TABLE
DROP TABLE

Reminder: To display all remaining tables in the selected database, use SHOW TABLES;. Use WHERE carefully with UPDATE and DELETE queries, especially when applying conditions to multiple banking records.
